SUMMARY

Passionate and hardworking Junior Developer with 2+ years of professional experience in designing, developing, and maintaining high-quality software solutions. Proficient in a variety of programming languages including Typescript, JavaScript and C#, with a strong background in front end game development.

Skilled in debugging, memory management, and DevOps practices, with a focus on delivering scalable and secure applications.

SKILLS

Programming Languages: Proficient in Typescript, JavaScript and C#, for developing robust and scalable applications.

Web Development: Experienced in front-end (HTML, CSS, React) and development.

Agile Methodologies: Experienced in Agile and Scrum frameworks for effective project management.

DevOps Tools: Experienced in DevOps software such as Git, Docker, Charles Proxying and Grafana.

EDUCATION

Gloucestershire University, Cheltenham, UK

1st Bachelor of Science (BSc) in Games Programming

September 2019 - June 2023

WORK EXPERIENCE

Mid Level Game Developer

Push Gaming, London, UK

May 2024 - July 2026

- Developed web-based casino slot games with Pixi, Spine, React and Typescript
- Collaborated on Agile development projects with animators, artists, mathematicians, producers, and audio designers to create engaging game features.
- Managed deployment of applications using Podman containers, configured Charles HTTP for request proxying, and implemented Grafana for server monitoring, enhancing system uptime and performance.

Software Developer (Temp Contract)

411 Data, London, UK

Nov 2023 - Jan 2024

- Developed online data visualization tools using JavaScript, CSS and HTML, representing data stored and organized with Python.
